Sherman Abrams' Outreach Portal Makes it Easy for Physicians to Place Orders and Receive Results

Easy, Intuitive Ordering Accelerates Physician Adoption

Frequently ordered tests and panels can be combined into a single group, streamlining ordering. Tests are automatically displayed on the screen based on the physician's ordering history.

Electronic Reports Give the Choice of Where, When and How

In addition to viewing and printing results, the Sherman Abrams portal allows users to trend reports, run cumulative reports for individual patients, forward reports to patients, run population health reports, and generate global results reports.

The screenshot displays the Sherman Abrams Labs ordering portal interface. At the top, there are navigation tabs for RESULTS, ORDERS, and PATIENTS. Below this, patient information is shown: Name: Abrams, Sherman; Office Id: CE000144; DOB: 01/01/1999; Sex: M; Primary Insurance: United Healthcare. A progress bar indicates the current step is 'Patient', with other steps being 'Tests', 'Diagnosis', 'Review', and 'Complete'. The 'Selected Tests' section lists various tests with checkboxes, including 326 Cholesterol, Total; 1104 Throat Culture; 8502 SurePath Pap; 1105 Wound Culture; 130 Urinalysis Complete W/ Reflex Microscopy; 107 CBC With Differential; 252 Comprehensive Metabolic Panel (CMP); and 17 xThyroid Panel. Below this, 'Test Groups' are listed with checkboxes for Female Profile, General Panel, and Male Profile. The 'Tests' section at the bottom lists more specific tests like 107 CBC With Differential, 339 Hemoglobin A1c, 1104 Throat Culture, 252 Comprehensive Metabolic Panel (CMP), 2019 SARS-CoV-2 IgG (Spike protein), 705 TSH, 2016 Flu A-B SARS-CoV-2 PCR, 2018 SARS-CoV-2, NAA (PCR), 9090 TSH With Reflex To Free T4, 6071 Group B Strep Culture, and 1108 Stool Culture. Navigation buttons for '< Back' and 'Next >' are at the bottom.
